ACKNOWLEDGEMENT
ACKNOWLEDGEMENTS

It has indeed been a rare privilege to have had the opportunity of working on this dissertation under the inspiring guidance of Dr. Kedar Nath, M.D., Professor and Head of Post-graduate Department of Medicine, Principal cum Chief Superintendent and Chief Physician, M.L.B. Medical College, Jhansi. The extent of academic excellence and depth, this thesis has been able to attain is only due to his constructive criticism, his meticulous concern for detail, his infinite patience and his persistent endeavours to get the best from his students. To him, I owe an inexpressible gratitude.

It is with a profound sense of gratitude and regards that I express my thanks to Dr. R.C. Arora, M.D., M.C.C.P., F.I.C.A., Reader in Post-graduate Department of Medicine, M.L.B. Medical College, Jhansi, for his keen interest, constant encouragement, timely suggestions, criticisms and untiring help without which this work would have remained a mere day dreaming. I unhesitatingly troubled him whenever I had any problem and he felt pleasure to solve it.

This long difficult and onerous task of completing the work would have never taken the present shape, had my learned teacher, Dr. P. Nigam, B.Sc., M.D., F.I.C.A., F.C.C.P., F.F.C.H., Lecturer in the Post-graduate Department of Medicine, M.L.B. Medical College, Jhansi, not shown the
path through the apparently unsurmountable obstacles which constantly came in way. I feel, I owe this work solely to his inspiring efforts.

I wish to put on record my heart-felt gratitude to all the staff members of the Department of Medicine, M.L.B. Medical College, Jhansi, who were always ready to extent their cooperation during the period of study.

I offer my affectionate thanks to Dr. H.S.Bajpai, M.D., for his cooperation in this study and timely encouragement to me.

I have no words to express my gratitude to my wife Mrs. Abha Yadav and younger brother Dr. P.R. Ghosh, for their constant moral support in these dreaded days of over work and for extending a helping hand beyond all limits and expectations.

I fail in my duty if I do not appreciate the kind assistance provided by Dr. Anil Gupta, Dr. Vipin Mehra, Dr. Satish Bajpai and other colleagues in the Department of Medicine.

Last but not the least my thanks to Mr. K.M.Thomas and Mr. M.S. Saxena, for their meticulous and painstaking labour in preparing a neat type-script.

Dated : Feb.'81.
