Acknowledgement

In my pursuit of higher knowledge, I was helped throughout by my guide, Dr. M.C Dubey, Mewar University whose guidance helped me tremendously to finish my thesis and I am very grateful to him. I am also very thankful to my Co-Supervisor, Dr. Farida Khanam for her critical guidance that made me achieve this herculean task as I did not have any Islamic Background. I will be forever indebted to her continued guidance and for keeping me on the right track till the completion of my thesis.

I would like to thank Dr. Naghma Siddiqi a Publisher and an educationist and who like my elder sister helped me with many books. She gave critical pointers that eased my pressure and made my thesis a reality. She was a great supporting force in my completion of thesis.

I would like to acknowledge Maulana Farhad Umeri who helped me with many important references from Arabic Books which formed part of the Primary sources. Without those references, my thesis would have weakened in its analysis and I would not have felt as confident as I am today.

Above all, I would also like to thank my inspiration, Maulana Wahiduddin Khan who was the force behind my PhD and whenever I was stuck, he showed me the solution whenever I went to interview him for my thesis. Without his support and scholarly inputs, certainly my thesis would not have been possible.

Lastly, as we all know that behind a successful man, there is a woman and my case is no different. I was blessed to have Stuti Malhotra, my wife who was my pillar of strength and support throughout the completion of my thesis. She kept encouraging and made me reach my goal by keeping my challenge response mechanism active. Clearly without Stuti’s help I would not have managed my thesis alone. I am thankful to God for giving me such a wonderful companion.
